

Accelerated reader from home

As reading is so important, we have enabled children to access Accelerated Reader from their homes for a limited period. They will therefore be able to read and quiz until they return to school. This will allow children to continue to work towards their targets from the comfort of their own homes.

Here is how to access Accelerated reader from home:

Use the website address below. This address is unique to our school so Googling 'accelerated reader' **will not work**.

<https://ukhosted57.renlearn.co.uk/2240849/>

- Once the website opens, click on 'I am a student' and log in using the username and password used to do quizzes at school. This is written on their reading record book or contact the school if they have forgotten.
- Type in the name of the book that they have finished reading and begin the quiz.
- Remember you can check whether books that read at home can be quizzed on by using

AR Bookfinder: <https://www.arbookfind.co.uk/>

Children should continue to read books within their range and your child should have brought a selection of books home to get them started. Of course, any reading at home is wonderful and quizzing on books is not essential. All reading is valuable and can be a wonderful way to relax and learn.

We will be updating your child's target after Easter and will let you know what this is after the holidays.

Happy reading!

From,

Miss Hayes
