

Curriculum Overview – Year 6 - Term 5

Computing

We continue our 'I app' unit this term the children will use development tools to create an app through collaborative group work.

Geography

In this unit the children will consider if we are damaging our world and how we can protect it. The children will investigate energy production, the oceans and mineral.

R. E.

Our question this term is – 'What do religions say to us when life gets hard?' We ask questions about life, death, suffering, and what matters most in life.

English

This term we look at a number of different text types in turn. We explore explanation texts: we conduct research, participate in practical activities and write factually explaining how popcorn pops. We explore short stories and their features. Using a picture stimulus, we write our own exciting short stories.

DT

Our Slippers unit allows the children to explore how to pin, sew, stitch and glue materials together to create a finished product.

Science

This term we begin our electricity unit through experimenting with the equipment, we learn to recognise that the brightness of a lamp or the volume of a buzzer is related to the number and voltage of cells used in the circuit.

Music

This term we will be reflecting upon ourselves and thinking about way to share our learning through music.

P.S.H.E.

The children will revisit common responses to unwelcome change and develop their abilities to emphasise with others. They will explore negative feelings don't last forever.

P. E.

This term we develop cricket skills learning to use correct feet and hand movements when wicket-keeping in a game situation. We identify and implement bowling and batting tactics to benefit performance.

French

Un Café – In this unit the children learn some new vocabulary for foods and drink. We learn about café culture and how to order from a menu.

Home Learning

Your child should read their AR reading book every evening and take quizzes in school to work towards their target.

Homework will also be sent home and your child should complete a Breakfast, Lunch and Dinner before the end of term.

Please remember that your child will need a water bottle every day.

Maths

This term we will be looking at perfecting our arithmetic skills. The aim is to rapidly recall all our multiplication and divisions facts, multiply and divide by powers of ten and manipulate decimal numbers. We will look at how we can create short cuts to improve our speed whilst maintaining accuracy.
